The Three Little Pigs

Once upon a time, there were three little pigs. They lived in a nice cottage with their mother and father.

One day the three pigs decided to go out into the world to seek their fortunes.

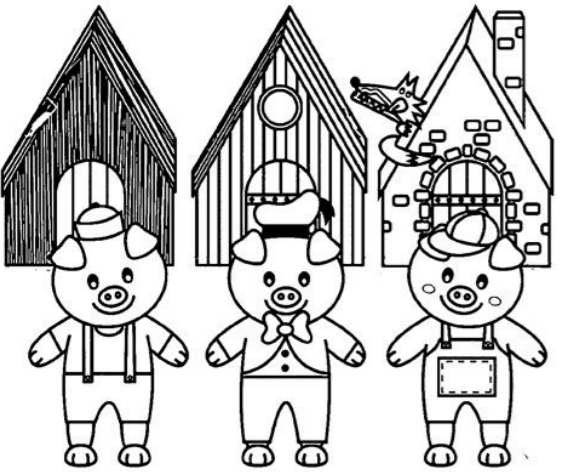

The first little pig met a man who had a bundle of straw on his head. The little pig wanted to build a house with the straw.

The big bad wolf was watching and one day he huffed and puffed and he blew the house down.

The little pig ran off to his brother's house which was made of wood. Again the wolf huffed and

Whoops! We're sorry but Epic doesn't work properly without JavaScript enabled. Check your web browser's settings to make sure it's enabled. Preschoolers love reading fairy tales! There's something so exciting to a 4-year-old about having a bad guy in the story and they just can't seem to get enough of it. We love to do an entire fairy tale unit where we study 1 fairy tale each week. I introduce it during circle time, and then at the end of the day we enjoy reading different versions of the same story. There are so many good ones to choose from! Since there's no way we could read them all, we transform our dramatic play center into a Library where the students can check out their favorite book to take home. Here are our 10 favorite books to read during the Three Little Pigs week. I hope you enjoy them too!

1. The Three Little Pigs by James Marshall This is our starter book a classic version of the fairy tale with simple, colorful illustrations. My older students (5-year-old Pre-K's) can listen to the whole thing, but I often skip the ending section where the 3rd pig tricks the wolf for my younger (3 & 4-year-old) class. 2. The Three Little Pigs illustrated by Mei Matsuoka I am always surprised to find out that many of my students have never heard the story of the three little pigs, so I like to read it again but from a different author. This one is perfect because of the simple text and large illustrations! 3. The Three Little Fish and the Big Bad Shark by Ken Geist I like to use this one next, because it follows the exact same pattern but with fish instead of pigs and a shark instead of a wolf. The students love to chime in with the refrain, "Not by the skin on my finny-fin!" 4. The Three Little Pigs by David Gordon All children, and especially the boys, will love this construction truck version of the three little pigs! Watch out for the big bad wrecking ball. 5. The Three Little Pigs The bad wolf of Mark Teague this is the perfect book to introduce children to the new vocabulary. I always start asking them what they think about "What and I love to hear all their ideas!" We are talking about how a little is "in the middle" in a "bad way" it means in the middle of the good and really badly. Then we foresee what the wolf could do that makes it a little bad. And this is everything that is used to get their attention 100% a bad guy, or a boy a little bad in this case! 6. The Three Ninja Caps of Corey Rosen Schwartz This fun and risen version of history is easy to read and fun to start! 7. The three little wolves and the great bad pig of Eugene Trivizas and if the roles are reversed and the wolves are innocent? What if there was a big, bad pig? I had this book for years and years and it is still absolutely one of my favorites! 8. The true story of Jon Scieszka's 3 small pickets this is a fun version of the story told from the wolf's point of view. He was not trying to break down the pigs' houses; He just sneaked! This book (#8-10) are probably more suitable for the most prescription. 9. Due is the great bad wolf? by Eileen Christelow in this story, Esmeralda is the wolf dress of sheep clothing that tries to deceive the gullible pigs. It is really fun! 10. The three spades of David Wiesner David Wiesner Illustrations and creatively signed are on display here! The three pigs are swept away so strong that they jump from the pages of the book and cross in other stories including Hey, Diddle Diddle. It is perfect for your thinkers out of the box! Here is a great three lazy circle time unit that works perfectly with these books! The best thing we can do for our preschoolers is to read to them every day. It is the most important factor of school readiness. After signed, you will be redirected to the free book lists. The long wolf with yellow eyes toothed to anti-slip teeth has a birkin and conniving appearance. The reader will laugh at the answer of the first pig to the advice of the man "daughter" not to use his straw. The pig says: "Your business, thank you." The second "Stick" answers his man by saying: "Oh Pooh... what would you know?" And the rest of the story follows the interaction of the third wise pig and the arrogant and bad wolf, culminating in a delicious wolf dinner for our third pig. The colorful, detailed, full of personality images and the humorous plot support each other to perfection. As a loud reading, this version of 3 small pigs will delight young listeners. Higher primary readers will laugh and many, surely, will reread. ... More once there were three small pigs and time came for them to go out of the house and search for their fortunes. Before they left, their mother told them "anything you do, do the best you can because this is the way to get along in the world. The first little pig built his house outside the straw because it was the easiest thing to do. The second pig built his house from the sticks. This was a little stronger than a straw house. The pig built his brick house. One night the great bad wolf, who loved to eat small fat pigs, came long and seenFirst small pig in his straw house. He said "let me enter, let me in, small pork or snorted you and I snorted and I took out your home!" "Not for the hair of my chin." said the little pig. But obviously the wolf blew the house and ate the first pig. The wolf has arrived at the house of the sticks. "Let me enter, leave me in a small pork or he snorted you and I snorted and I suffered your home" "not for the hair of the chin chinny." said the little pig. But the wolf also stirred that house and ate the second pig. The wolf then came to the brick house. "Let me enter, let me in" cried the wolf "or he snorted me and he pushed up there was not suffering from your home" "not for the hair of the chin of chinny" said the pigs. Well, the wolf snorted and praised, but could not blow in that brick house. But the wolf was an old smart wolf and he climbed on the roof to look for a way in the brick house. The pig saw the wolf on the roof and lit a roaring fire in the fireplace and put a large water kettle. When the wolf finally found the hole in the fireplace that crawled and the Kersplash in that water kettle and that was the end of him with the Big Bad Wolf. The next day the little pig invited his mother. She said, "you see that it is just as I told you. The way to get along in the world is to do things in the best possible way." Fortunately for that small pig, she learned that lesson. And he has just lived happy and happy! The three small pigs: the next page - The history of the three small pigs presented here was adapted by different sources and by childish memory. The primary sources are the English fairy tales, told by Flora Annie Steel (1922) with illustrations by L. Leslie Brooke from the 1904 version. This story is present in our favorite fairy tales and stories for children.
